Participatory budgeting (PB) is a process of democratic deliberation and decision-making, in which ordinary people decide how to allocate part of a municipal or public budget. Participatory budgeting allows citizens to identify, discuss, and prioritize public spending projects, and gives them the power to make real decisions about how money is spent.

Complexity characterises the behaviour of a system or model whose components interact in multiple ways and follow local rules, meaning there is no reasonable higher instruction to define the various possible interactions.. The term is generally used to characterize something with many parts where those parts interact with each other in multiple ways, culminating in a higher order of emergence ...

The Validity of Company Valuation Using Discounted Cash

The Association for Fundraising Professionals (AFP) defines the case as "the reasons why an organization both needs and merits philanthropic support, usually by outlining the organization's programs, current needs, and plans." A case statement, "a presentation that sets forth a case." The first is a concept, while the second is a physical document. We want to draw a further distinction.
