Hi clive, I liked your post on predicted and actual temperature. I also like that you work at CERN and did real science! I'm trying to do something vaguely related for SCEF (Scottish Climate & Energy Forum), so I'd be very pleased if you could email me as I'd like to ask whether you can help us.

About | Clive Best

Security-Enhanced Linux (SELinux) is a Linux kernel security module that provides a mechanism for supporting access control security policies, including mandatory access controls (MAC).. SELinux is a set of kernel modifications and user-space tools that have been added to various Linux distributions. Its architecture strives to separate enforcement of security decisions from the security policy ...

A computer network, or data network, is a digital telecommunications network which allows nodes to share resources. In computer networks, computing devices exchange data with each other using connections between nodes. These data links are established over cable media such as wires or optic cables, or wireless media such as WiFi.. Network computer devices that originate, route and terminate the ...

Computer network - Wikipedia

From a macro and asset allocation perspective, we think we may be on the cusp of a secular shift where a new playbook for investing may be required. Most importantly, we now see a significant “baton hand-off”™ in many of the markets that we cover from monetary policy towards fiscal stimulus “perhaps the most important shift in the last decade.
