1 400 KV Transmission Line Main-I: Non switched or Numerical Distance Scheme Main-II: Non switched or Numerical Distance Scheme 2 220 KV Transmission Line Main-I : Non switched distance scheme (Fed from Bus PTs) Main-II: Switched distance scheme (Fed from line CVTs) With a changeover facility from ...

### **Comparison of Protection Relay Types**

Distance relays are one of the most important protection elements in a transmission line. In the case of parallel lines, the mutual coupling of these lines can cause distance relays to under reach and over reach. For this reason the relay setting must consider this effect, some relays have ...

### **Principles and Characteristics of Distance Protection**

Distance Protection Scheme For Protection of Long Transmission Line Considering the Effect of Fault Resistance By Using the ANN Approach International Journal of Electrical and Electronics Engineering (IJEEE) ISSN (PRINT): 2231 - 5284, Vol-1, Iss-3, 2012 63

Weather forecasting is the application of science and technology to predict the conditions of the atmosphere for a given location and time. People have attempted to predict the weather informally for millennia and formally since the 19th century. Weather forecasts are made by collecting quantitative data about the current state of the atmosphere at a given place and using meteorology to project ...
