MICROECONOMICS - Alfred Marshall's Principles of Economics

Economics is a study of mankind in the ordinary business of life. So wrote Alfred Marshall, the great 19th-century economist, in his textbook, Principles of Economics. Although we have learned much about the economy since Marshall's time, this definition of economics is as true today as it was in 1890, when the first edition of his text ...

knowledge of basic economics six months after taking the course, they do not perform significantly better than others who never took an introductory course. This is scandalous. How can a university justify charging

thousands of dollars for courses that add no value? Even the most basic principles of economics don't seem to be getting across.

Introduction - Robert H Frank

Two well-respected writers and researchers, Bob Frank and Ben Bernanke, have shown that the less-is-more approach affords similar gains in introductory economics. Although recent editions of a few other texts have paid lip service to this new approach, Frank/Bernanke is by far the best thought out and best executed principles text in this mold.
