He is a leader and a promoter of Architecture Engineering, Construction (AEC) technology, including ...

Building Information Modeling (BIM) Interoperability

Highlights We explore the project benefits of Building Information Modelling (BIM). We analyse 35 construction projects which report on the use of BIM. Cost reduction and control are the most commonly reported benefit. Time savings and enhanced communication are significant positive outcomes. Challenges from using BIM-related software produce negative benefits in some cases.

The project benefits of Building Information Modelling

Air conditioning (often referred to as AC, A/C, or air con) is the process of removing heat and moisture from the interior of an occupied space, to improve the comfort of occupants. Air conditioning can be used in both domestic and commercial environments. This process is most commonly used to achieve a more comfortable interior environment, typically for humans and animals; however, air ...
